

# JETPROPS CHARTER

THE BAY AREA'S CHOICE FOR EFFICIENT PRIVATE TRAVEL

Cessna Golden Eagle

Pilatus PC-12

## DRY LEASE OPTIONS

### How It Works

If you fly less than 50 hours a year, leasing a top-of-the-line Cessna Golden Eagle is the perfect way to travel on your terms. With Jetprops Charter's dry leasing program, you can enjoy the convenience having your own private aircraft at a cost that is up to 50% lower than traditional charter.

With a dry lease, you buy a small block of flight time (minimum 10 hours) to use at your discretion throughout the year. You pay no maintenance costs, no fixed costs, or Federal Excise Tax (7.5%). You pay only for the flight crew by the day; not the hour like typical charter operations.

### Try Before You Buy!

Dry lease an aircraft for up to one year and then become a fractional owner for even more cost savings.

---

**Lease Cost \$5,000 or \$500/flight hour**

Minimum lease 10 hours

**Pilot/Crew Cost: \$300/day**

---
