

JETPROPS

CHARTER

THE BAY AREA'S CHOICE FOR EFFICIENT PRIVATE TRAVEL

Cessna Golden Eagle

Beechcraft King Air 90

FRACTIONAL OWNERSHIP

How It Works

Buy into a Limited Edition Cessna Golden Eagle at a minimum of 20% ownership. For each 20% share, 100 annual flight hours are allotted, good for roughly 60 round trips to Lake Tahoe, enough to fly to Tahoe every weekend! You can fly up to 12 people anywhere in the world, anytime, while retaining the same aircraft and flight crew.

You only pay the direct operating costs (fuel/oil/regular servicing), for the aircraft when you fly. Fixed costs such as pilot salary, hangar rent, cleaning, insurance, annual maintenance and management fees are split based on percentage ownership; and billed monthly. Any additional maintenance is split between owners and is based on usage during the prior 60 days.

With fractional ownership, you pay no federal excise tax. Depreciation can be applied to aircraft used over 51% for business travel. Consult your tax professional for specifics.

Estimated Annual Cost 20% Ownership

\$36,000 or \$750/flight hour for 50 hours of use

\$48,000 or \$500/flight hour for 100 hours of use
